

Bachelor of Science (Honours) in Computing

3rd Year Top Up

(University of Wales)

The Bachelor of Science (Honours) in Computing top up year, awarded by the University of Wales, is an internationally recognised qualification aimed at students who want to pursue a career as a decision maker within the IT sector. At the final stage of the LSBM/Edexcel degree pathway, students can supplement their diploma and advanced diploma awards with this degree certificate.

Fees Year 1 £5,250
Year 2 £5,500
Year 3 £6,000

Duration

Full-time 1 Year

Programme Content

Software Engineering Methods
Software Engineering Management
Corporate Communications Systems Management
Advanced Database Management Systems
Object Orientated Analysis and Design
Management Support Systems
Information Systems Project

Entry Requirements

- Successful graduates of the LSBM/Edexcel Advanced Diploma in Information Technology or;
- any other qualification previously accepted by the University of Wales.
- For students whose first language is not English, a minimum IELTS score of 5.0 or equivalent is required.

Academic Progression

Successful graduates of this programme are eligible to study at LSBM towards the LSBM/Edexcel Advanced Professional Diploma in Business and Strategic IT, or apply to enrol at academic institutions worldwide for entry onto postgraduate programmes.

Career Opportunities

Graduates possess highly technical IT skills and play a key role in the analysis and development of software systems, working as analysts, designers and programmers. Employers commonly regard the achievement of a degree as a good indicator of development potential, and university graduates are often fast tracked to management positions.
